 - 2) Number of treasury stock at the end of the term (shares)

Fiscal year ended October 2012: 6,460,837 Fiscal year ended October 2011: 6,460,877

3) Average number of shares during the term:

Fiscal year ended October 2012:: 143,540,996 Fiscal year ended October 2011: 142,492,733

* Explanation about the proper use of financial projections and other important notes:

This financial summary is not subject to the financial statement audits under the Financial Instruments and Exchange Act, and the financial statement audits under the Financial Instruments and Exchange Act had not been completed at the time of disclosure.

* Explanation about the proper use of financial projections and other important notes:

(Note about forward-looking statements)

The projections above represent an outlook for the future and assumptions about uncertain factors that might affect future results, based on information available as of the date of the announcement of this document. Actual results may differ from the projections as a result of factors arising in the future.

For notes on the use of performance forecasts and assumptions for performance forecasts, please see "1. Business Results, (1) Analysis of operating results" on page1.

1. Analysis of Operating Results and Financial Position

(1) Analysis of consolidated operating results

(i) Operating results for the fiscal year under review

During the term under review (from November 1, 2011 to October 31, 2012), the Japanese economy showed some signs of moderate recovery in personal spending and capital expenditures driven by reconstruction demand after the earthquake and the effect of the government policies, including a subsidy program to promote sales of eco-friendly cars. However, the outlook for the Japanese economy remained uncertain, given a number of concerns including weak exports and production, reflecting the decelerating global economy with the European debt crisis as a backdrop, the established appreciation of the yen, and the peeling of policy effects, as well as the constraint of electric power supply and the continuation of deflationary trends.

In this environment, the Group sought to achieve a comfortable automobile society by increasing the number of parking facilities and parking spaces in the Parking Business. It also endeavored to expand the revenue base of the rent-a-car service and create a market for the car sharing service in the Mobility Business.

As a result, during the term under review, the Group reached a new high in sales and profit at each level, posting net sales of 139,547 million yen (up 12.5% year on year), operating profit of 17,809 million yen (up 34.0%), and recurring profit of 17,317 million yen (up 36.2%). Net income stood at 9,670 million yen (up 47.7%).

Results by business segment are as follows:

Parking Business

On the development front, the Group focused on improving profitability while promoting dominant area development. As a consequence, the numbers of Times parking facilities and parking spaces managed at the end of the term under review were 11,764, up 10.0% from the end of the previous fiscal year, and 395,784, up 10.8%, respectively. The total number of parking facilities managed, including monthly parking and facility management services, rose 8.7% from the end of the previous fiscal year, to 13,166, and the total number of parking spaces managed increased 8.2%, to 494,672.

On the earnings front, in addition to the development of new lucrative parking lots, the Group took action to improve the profitability of existing sites based on analyses of TONIC (Times Online Network & Information Center) data. Meanwhile, the Group continued to carry out a range of initiatives to enhance convenience for customers, including the promotion of electronic and credit card payments, the sale of parking tickets to commercial facilities near parking facilities, and flexible changes in parking fees. As a result, sales in this segment (including intersegment sales) stood at 111,596 million yen (increasing 8.8% year on year), and operating profit was 23,434 million yen (up 21.4%).

Mobility Business

In the rent-a-car service, the Group sought to expand its customer base by adding new sales offices to its sales network, stepping up its corporate marketing activities and carrying out campaigns tailored to area characteristics. In the car sharing service, which is still in the early stages of development, the number of members stood at 150,370 at the end of the term, up 109.3% from the end of the previous fiscal year, reflecting increased visibility through increases in the number of car sharing vehicles and customer-oriented promotional activities. The road service, launched following the acquisition of Rescue Network Co., Ltd. shares in March last year, also performed solidly overall.

As a result, the total number of vehicles in the Mobility Business segment at the end of the term under review rose 12.7% from the end of the previous fiscal year, to 29,578 (of which, the number of vehicles for the car sharing service was 4,503), sales in the segment (including intersegment sales) reached 28,120 million yen (increasing 27.3% year on year), while operating profit was 7 million yen (compared with an operating loss of 109 million yen a year ago).

(ii) Outlook for next term

The outlook for the Japanese economy looks likely to remain in the balance, given a number of concerns including the prolonged appreciation of the yen and the continuation of deflationary trends, in addition to uncertainties over the external economic environment such as those in Europe and China.

Notwithstanding this environment, the Group is aiming to increase both sales and profits by expanding revenue sources through aggressive business promotion.

In the Parking Business, we will aim to increase the number of parking spaces to be developed in the next term to 67,000 spaces, up 10.3% year on year), mainly concentrating on the development of the Times Partner Service ("TPS") by taking in the outsourcing needs of corporate customers among other initiatives.

In the Mobility Business, we will expand the car-sharing service (to the number of car sharing vehicles at the end of the term to 7,000, up 55.5% from the end of the previous fiscal year) and improve service quality in the rent-a-car service by strengthening marketing activities targeting the corporate sector, enhancing backyard functions, and improving store operations.

From April 2013 we will use a uniform brand name, Times, for our services, changing the name of our rent-a-car service from MAZDA Car Rental to Times Car Rental and the name of our car sharing service from Times PLUS to Times Car PLUS. In addition, we will expand uses of points of Times Club, a members-only points reward program for drivers, and will launch a premium member program. Through these initiatives, we will increase the visibility of Times and customers' convenience. We will also expand our networks of parking facilities and mobility services and will promote integration of the two networks.

Through these activities, the Group plans to post net sales of 155,000million yen, operating profit of 20,500 million yen, recurring profit of 20,000 million yen, and net income of 11,200 million yen in the fiscal year ending October 31, 2013, posting figures that represent new all-time highs.

(2) Analysis of consolidated financial position

(i) Assets, liabilities and net assets

Total assets at the end of the fiscal year under review rose 8,873 million yen from the end of the previous fiscal year, to 117,808 million yen. The increase was primarily attributable to a rise in total property, plant, and equipment, including machinery, equipment, and vehicles and lease assets, of 6,919 million yen.

Total liabilities increased 2,665 million yen, to 69,915 million yen. Major increases and decreases included rises in lease obligations of 1,349 million yen, accounts payable-other of 522 million yen, notes payable-facilities of 1,175 million yen, and income taxes payable of 2,361 million yen and a decline in long- and short-term loans payable of 4,061 million yen.

Net assets rose 6,207 million yen, to 47,893 million yen, as net income of 9,670 million yen and other positive factors more than offset dividend payments of 4,276 million yen and other negative factors.

(ii) Cash flows

Cash and cash equivalents at the end of the fiscal year under review increased 46 million yen from the end of the previous consolidated fiscal year, to 12,028 million yen.

The cash-flow situation by category for the fiscal year was as follows:

(Net cash from operating activities)

Net cash generated by operating activities rose 7,795 million yen from a year ago, to 28,794 million yen. The major reason for the increase was the total of depreciation and amortization, impairment loss, and income before income taxes and minority interests of 31,455 million yen. The main negative factor was income taxes paid of 5,981 million yen.

(Net cash from investing activities)

Net cash used in investing activities was 18,743 million yen (cash outflows increased 4 million yen from a year ago). This figure primarily reflects purchases of property, plant and equipment of 14,767 million yen associated with the opening of parking facilities and the acquisition of vehicles for the rent-a-car service, and the purchase of long-term prepaid expenses of 3,236 million yen.

(Net cash from financing activities)

Net cash used in financial activities was 10,009 million yen (cash outflows increased 7,254 million yen from a year ago), attributable primarily to a net decrease in short-term loans payable of 8,196 million yen, repayment of long-term loans payable of 6,778 million yen, and repayments of lease obligations of 2,792 million yen, as well as dividend payments of 4,283 million yen, which offset proceeds from long-term loans payable of 10,900 million yen.

(Changes in cash flow-related indicators)

	October 2012 Year end	October 2011 Year end	October 2010 Year end
Shareholders' equity ratio (%)	41.5	38.9	42.2
Market capitalization-based shareholders' equity ratio (%)	167.6	119.6	116.7
Number of years for debt redemption (Years)	1.5	2.2	1.9
Interest coverage ratio (Times)	78.2	48.8	38.3

(Note) Shareholders' equity ratio: Shareholders' equity / Total assets

Market-capitalization-based shareholders' equity ratio: Market capitalization / Total assets Number of years for debt redemption: Interest-bearing debt / Cash flow from operating activities Interest coverage ratio: Cash flow from operating activities / Interest payments

- * Each indicator is calculated based on consolidated financial data.
- * Market capitalization is calculated by multiplying the term-end closing share price by the term-end number of shares issued (after treasury stock deduction).

- * Operating cash flow is cash flow from operating activities of the statement of consolidated cash flow.
- * Interest bearing debt includes all interest bearing debt posted in the consolidated balance sheet.
- * Interest payments are the amount of payments of interest included in the statement of consolidated cash flow.

(3) Basic policy of profit distribution and dividend for the term under review and next term

With respect to profit distribution, we place priority on enhancing our corporate value through earnings growth. Our basic policy under this concept is to secure internal reserves as future investment funds and to return surplus funds to shareholders primarily in the forms of dividends.

We will allocate internal reserves for research and development and for capital expenditure to create a new automobile society and maximize corporate value. To this end, we will consider potential alliances and make timely investments.

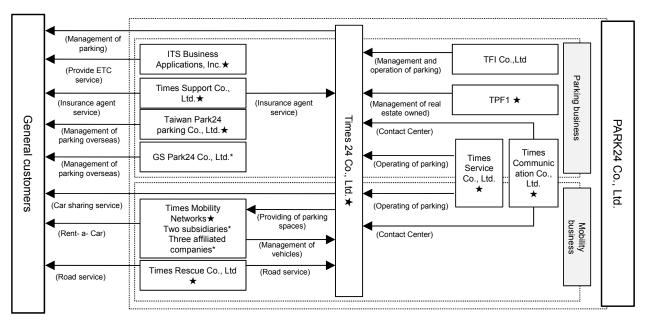

Under our basic policy, we will not pay an interim dividend but will pay a year-end dividend of 35 yen per share for the fiscal year under review. The dividend payout ratio will be 52.0%. We also plan to pay a year-end dividend of 35 yen per share (with no interim dividend) for the next term. The dividend payout ratio will be 45.1%

2. Status of the PARK24 Group

The Group (the Company and its affiliates) consists of the Company, 11 consolidated subsidiaries, two non-consolidated subsidiaries, and four affiliates. The Group manages and operates parking facilities, rents and trades vehicles, and develops related businesses.

The following chart shows the businesses of Group companies and relations among them:

(*) The trade name of Rescue Network Co., Ltd. was changed to Times Rescue Co., Ltd. on November 1, 2012.

★ Consolidated subsidiary * Affiliated company, accounted for by the equity method

The businesses of the Group are as follows:

The Group provides pay-by-the-hour and pay-by-the-month parking facilities services Parking Business:

under sublease agreements for renting idle land lots from landowners and administration

trustee agreements for managing parking facilities on behalf of their owners.

The Group also manages and operates incidental facilities of parking facilities.

The Group provides rent-a-car service at its rent-a-car premises nationwide and operates Mobility Business:

and seeks to expand car-sharing service to promote new methods of using cars.

It also provides road service for handling car accidents and trouble.

3. Management Policy

(1) Basic management policy

The basic policy of the Park24 Group is to play a role in the creation of a new motoring society that is safe, secure, and comfortable under the slogan of "People, Cars, Communities, and (Times)." Based on this policy, we will create new value in the motoring society by expanding our network of parking facilities and mobility businesses and harness our management resources.

The Group will respond to the trust and expectations of all stakeholders by sustaining overall growth and fulfilling its corporate social responsibility through the activities described above.

(2) Targeted management indices

The Group believes that its main business challenge is achieving and ensuring strong growth and profitability. It places the upmost emphasis on the rate of growth in recurring profit and strives to maintain double-digit growth.

(3) Medium-term and long-term business strategies

The Park24 Group aims to continue to expand Times parking facilities that form the platform for its services and establish mobility networks to achieve sustained growth.

In the Parking Business, we will focus our efforts on TPS, which has large growth potential,

and at the same time strengthen areas in which we are dominant to achieve 500,000 vehicles for Times parking facilities by fiscal 2014.

In the Mobility Business, we will accelerate the deployment of vehicles to Times parking facilities to promote the Times PLUS car-sharing service and seek to create a new market by quickly developing and establishing an environment in which people can use cars if they go to a Times parking facility. In the rent-a-car service, we will enhance new store openings in areas where high profitability can be expected and at the same time create a new rent-a-car service. Through these efforts, we plan to establish a mobility network constituting 40,000 vehicles.

By establishing and harmonizing both the Times parking facilities network and mobility network, the Group aims at creating a comfortable motoring society.

(4) Challenges

The Group is tackling the following challenges to create a comfortable motoring society and achieve continued growth:

(i) Optimizing the parking supply-demand balance

Aiming to create towns without street parking, we strive to optimize the supply-demand balance through the development of parking facilities geared to future supply-demand trends.

(ii) Establishing parking facility network

To create a Times Network that forms the platform for new services, we will focus our efforts on TPS, which enjoys large growth potential, and at the same time strengthen areas in which we are dominant.

(iii) Promoting high added value parking facilities

In response to highly safe and ecofriendly cars and highly developed roads, TONIC (Times Online Network & Information Center) will also be used at Times parking facilities to introduce services with improved convenience.

(iv) Establishing the car sharing market

To establish a car sharing market that provides a new means of transportation, we aim at developing an environment in which people can use cars if they visit a Times parking facility by rapidly supplying vehicles for car sharing.

(v) Establishing the mobility network

We will establish a network of rent-a-car sites to respond to the diversifying needs of drivers and at the same time seek to develop an environment in which people can travel safely and securely, relying on incidental services such as road services.

(vi) Fostering efficiency through optimal allocation and harmonization of management resources We aim at strengthening the financial position of the Group by enhancing productivity through the optimal allocation and harmonization of management resources, including manpower, goods and capital.

(5)Note on going concern assumptions

Not applicable

(6)Material matters as base in preparation of consolidated financial statements

1. Matters related to the scope of consolidation

Number of consolidated subsidiaries: 11

Times24 Co., Ltd.

Times Service Co., Ltd.

Times Communication Co., Ltd.

TPF-1 Limited

Taiwan Park24 Parking Co., Ltd. (Taiwan)

ITS Business Applications Co., Ltd.

Times Mobility Networks Co., Ltd.

Times Support Co., Ltd.

TPF-3 Limited

Rescue Network Co., Ltd.

TFI Co.,Ltd.

Increase through establishment: 1

TFI Co.,Ltd.

Number of non-consolidated subsidiaries: 2

MAZDA Car Rental Fukuoka Corporation

MAZDA Car Rental Oita Corporation

The total assets, net sales, net income/loss (commensurate with the equity held by the Group), and retained surplus (commensurate with the equity held by the Group) of the two non-consolidated subsidiaries were all small amounts, and the effects on the consolidated financial statements were minor.

2.Matters related to application of the equity method

Number of equity method non-consolidated subsidiaries: 2

MAZDA Car Rental Fukuoka Corporation

MAZDA Car Rental Oita Corporation

Number of affiliated equity method companies: 4

GS Park24 Co., Ltd. (South Korea)

MAZDA Car Rental Saitama Corporation

MAZDA Car Rental Koshin Corporation

MAZDA Car Rental Ehime Corporation

We apply the equity method to the financial statements of the equity method subsidiaries and affiliates based on their provisional settlements of accounts made on the consolidated closing date.

3.Matters related to the closing date etc. of the consolidated subsidiaries

The fiscal year ends of consolidated subsidiaries other than TFI Co., Ltd. and Taiwan Park24 Parking Co., Ltd. (Taiwan) are the same as the consolidated fiscal year end. The fiscal year ends of TFI Co., Ltd. and Taiwan Park24 Parking Co., Ltd. (Taiwan) are March 31 and September 30, respectively. With respect to the preparation of consolidated financial statements, TFI Co., Ltd. uses financial statements for provisional settlement as of October 31, and Taiwan Park24 Parking Co., Ltd. (Taiwan) uses financial statements as of the fiscal year end, and an adjustment is made for important transactions undertaken in the period up to the end of the consolidated fiscal year.

4. Matters related to the accounting standards

- (1) Important appraisal standards and appraisal method for assets
 - A. Short-term investment securities
 - (a) Other securities

Securities with a market price

We adopt the market value method based on market prices on the closing date of the consolidated accounting period. (Variances from the valuation at term end are all included directly in capital; costs of products sold during the term are calculated using the moving average method.)

Securities without a market price:

We adopt the cost method based on the moving average method.

B. Inventories

(a)Merchandise

The cost method from the individual method (Balance sheet values are written down in accordance with falls in profitability.)

(b)Supplies

The last purchase method (Balance sheet values are written down in accordance with falls in profitability.)

(2) Important method of depreciation of fixed assets

A. Property, plant and equipment

(a) Property, plant and equipment other than leased assets

We adopt the fixed rate method. However, we adopt the straight line method for buildings (excluding equipment attached to buildings) acquired on and after April 1, 1998

Major useful lives:

Buildings: Six to 50 years Structures: Ten to 45 years

(b) Leased assets

Leased assets relating to finance lease transactions without the transfer of ownership

We adopt the straight line method. The lease period is set to durable years, and the residual value is set to zero.

B. Intangible assets

We adopt the fixed amount method. However, for software used by the Company, we adopt the fixed amount method based on the usable period within the Company (five years)

C. Long-term prepaid expenses

We adopt primarily the fixed amount method.

(3) Important standards for appropriation of allowances

A. Allowance for doubtful accounts

To prepare for losses incurred by defaults on accounts receivable, etc., given the loan loss ratio for general credits and the individual collectability for specific credits such as doubtful debts, etc., we post the estimated uncollectible amount

B. Provision for bonuses

The amount expected to be paid as bonuses is posted for the payment of bonuses

C. Provision for directors' bonuses

The amount expected to be paid as directors' bonuses is posted for the payment of directors' bonuses.

D. Provision for retirement benefits

The retirement benefit obligation estimated based on the projected retirement benefit obligation at the end of the current consolidated fiscal year is posted as retirement benefit allowances for employees. Past service cost was appropriated for expenses in a lump sum when the system was changed. Actuarial differences are appropriated pro rata using the fixed amount method over the following consolidated fiscal years (five years), a period that is not beyond the average remaining service years of employees calculated at the time of occurrence.

E. Provision for directors' retirement benefits

To prepare for payment of officers' retirement allowances, the amount of payment required at the end of term under the officers' retirement allowance rules is posted.

(4) Matters related to the amortization of goodwill

Goodwill is amortized equally over ten years.

(5) Scope of funds for consolidated cash flow statement

Funds (cash and cash equivalents) in the consolidated cash flow statement consist of cash on hand, liquid deposits and short-term investments that can be readily converted into cash with a low risk of fluctuations in value, and with a redemption date within three months of the acquisition date.

(6) Other important matters for production of the consolidated financial statements

Accounting treatment of consumption tax

We adopt the net of tax method for consumption tax.

(7) Changes in accounting policies

The Accounting Standard for Earnings Per Share (Accounting Standards Board of Japan [ASBJ] Statement No. 2 on June 30, 2010) and the Guidance on Accounting Standard for Earnings Per Share (ASBJ Guidance No. 4 published on June 30,2010) were applied in the fiscal year under review. The Company has changed the method by which it calculates diluted net income per share as follows: For stock options that vest after a specified service period, the Company now includes the portion of stock options' fair value attributable to future service when calculating the cash proceeds assumed to be receivable upon exercise of the stock options.

The effect of the application is described in the note to per share information.

(8) Additional information

Application of the Accounting Standard for Accounting Changes and Error Corrections
The Company applied the Accounting Standard for Accounting Changes and Error Corrections
(ASBJ Standard No. 24 on December 4, 2009) and the Guidance on Accounting Standard for Accounting
Changes and Error Corrections (ASBJ Guidance No. 24 on December 4, 2009) to accounting changes and
corrections of prior period errors that were made on or after November 1, 2011.

(9)Explanatory notes

Investment securities (shares):

1,056

The land for business purposes is revalued, and the resulting variance is posted in net assets under the Act on Revaluation of Land (No. 34 promulgated on March 31, 1998) and the Law to Amend the Act on Revaluation of Land (promulgated on March 31, 1999).

· Method of revaluation

The value of land is based on the price calculated according to the method determined by the Director General of the Tax Administration Agency and announced for determining land prices that form the basis for calculating the taxable value of land value tax pursuant to Article 16 of the Land Value Tax Law (Land No. 69 of 1991) stipulated in Article 2, Item 4 of the Order for Enforcement on the Act on Revaluation of Land (Government Order No. 119 promulgated on March 31, 1998). Reasonable adjustments, including price adjustments by depth, are made to the value.

· Date of revaluation: October 31, 2000

		(Million yen)
	As of October 31, 2011 Previous consolidated fiscal year	As of October 31, 2012 Consolidated fiscal year
Variance between the market value of revalued land at the end of the term and the book value after revaluation	31	14

(Notes to statement of consolidated cash flow)

1 Relationship between cash and cash equivalents at the end of the fiscal year and amounts in accounts in the consolidated balance sheet(As of October 31, 2012)

		(Million yen)
	From November 1, 2010 to October 31, 2011 Previous consolidated fiscal year	From November 1, 2011 to October 31, 2012 Consolidated fiscal year
Cash and deposits	11,997	12,044
Time deposits whose deposit terms exceed three months	(16)	(16)
Cash and cash equivalents	11,981	12,028

(Lease transactions)

1 Finance lease transactions without a transfer of ownership prior to the application of the AccountingStandard for Lease Transactions

The transactions are accounted for in a manner similar to accounting treatment for ordinary rental transactions. Details are as follows:

(As lessee)

(1) Amounts equivalent to the acquisition price, total sum of depreciation, total sum of impairment losses, and balance at the end of the fiscal year of leased assets

(Million yen)

	As of October 31, 2011		
	Previous consolidated fiscal year		
	Amount equivalent to	Amount equivalent to total sum	Amount equivalent to balance
	acquisition price	of depreciation	at the end of term
Parking facilities	7,508	6,899	608

(Million ven)

			(
	As of October 31, 2012		
	Previous consolidated fiscal year		
	Amount equivalent to	Amount equivalent to total sum	Amount equivalent to balance
	acquisition price	of depreciation	at the end of term
Parking facilities	3,907	3,702	204

(2) Amount equivalent to balance of unearned lease fees at the end of term

(Million yen)

	As of October 31, 2011 Previous consolidated fiscal year	As of October 31, 2012 Previous consolidated fiscal year
Amount equivalent to balance of unearned lease fees at the end of term		
Less than one year	1,033	468
Over one year	607	136
Total	1,641	604

(3) Lease fees paid, reversal of leased assets impairment account, amount equivalent to depreciation, amount equivalent to interest paid, and impairment loss

(Million yen)

	From November 1, 2010 to October 31, 2011 Previous consolidated fiscal year	From November 1, 2011 to October 31, 2012 Consolidated fiscal year
Lease fees paid	1,718	1,049
Amount equivalent to depreciation cost	801	400
Amount equivalent to interest paid	55	24

(4) Method of calculating amounts equivalent to depreciation cost and to interest

Method of calculating the amount equivalent to depreciation cost

The amount equivalent to depreciation cost for each term is calculated by the constant percentage method where the lease period is assigned to the effective life, and 10% is assigned to residual value, then the amount is multiplied by ten ninths

Method of calculating the amount equivalent to interest

While the disparity between the total sum of lease fees and the amount equivalent to the acquisition price of lease assets is set as the amount equivalent to interest, we adopt the interest method for distribution to the respective terms.

(Impairment loss)

There are no impairment losses allotted to leased assets.

2 Finance lease transactions

(As lessee)

Finance lease transactions without a transfer of ownership

(1) Details of lease assets

Property, plant and equipment

Primarily tools and equipment including equipment in the Parking Business

(2) Method of depreciating lease assets

The depreciation method is described in "4. Matters related to accounting standards, (2) Important method of depreciation of fixed assets" of "Material matters as base in preparation of consolidated financial statements."

(Deferred tax accounting)

Net deferred tax assets

1 Breakdown of deferred tax assets and deferred tax liabilities by source

(Million yen) From November 1, 2010 From November 1, 2011 to October 31, 2011 to October 31, 2012 Previous consolidated fiscal Consolidated fiscal year year Deferred tax assets Current assets 334 499 Business tax and business office tax payable Provision for bonuses 401 409 Other 208 222 Subtotal 944 1,131 (200)Provision for valuation Total current assets 744 1,131 Noncurrent assets Provision for retirement benefits 365 305 Provision for directors' retirement benefits 91 91 One-time write-off of assets 148 155 Depreciation 360 331 Deferred tax assets related to revaluation 431 374 Asset retirement obligations 1,375 1,315 Other 339 542 3,116 Subtotal 3,113 Provision for valuation (129)(841) Total noncurrent assets 2,983 2,275 Total deferred tax assets 3.727 3.407 Deferred tax liabilities Noncurrent liabilities Valuation difference on securities (52)(0) (841) Removal costs for asset retirement obligations (872)Other (11)(8) Subtotal (936)(851)Total deferred tax liabilities (936)(851) 2,790

(Note) Net deferred tax assets in the previous fiscal year and fiscal year under review are included in the following items on the consolidated balance sheet:

Noncurrent liabilities - Deferred tax liabilities	8	-

2,555

Breakdown of difference between the legally effective tax rate and the actual effective tax rate after applying tax effect accounting by major cause

	As of October 31, 2011 Previous consolidated fiscal year	(%) As of October 31, 2012 Previous consolidated fiscal year
Legally effective tax rate	41.0	41.0
(Adjustment)		
Provision for valuation	0.5	1.8
Items permanently excluded fro expenses including entertainment expenses	0.8	0.5
Permanent differences including dividends income	_	(2.0)
Residence tax on a per capi a basis	0.5	0.4
Effect of tax rate change	_	1.5
Other	0.5	0.8
Effective tax rate after applying tax effect accounting	43.3	44.0

3 Amendment of the amount of deferred tax assets and deferred tax liabilities due to the effect of change in corporate tax rates

Following the introduction on December 2, 2011 of the Act for Partial Revision of the Income Tax Act, etc. for the Purpose of Creating Taxation System Responding to Changes in Economic and Social Structures (Act No. 114 of 2011) and the Act on Special Measures for Securing Financial Resources Necessary to Implement Measures for Reconstruction following the Great East Japan Earthquake (Act No. 117 of 2011), corporate tax rates were reduced and the special reconstruction corporate tax was imposed for the fiscal years beginning on or after April 1, 2012. In line with these changes, the effective corporate tax rate used to measure deferred tax assets and liabilities are changed from 41.0% to 38.0% for temporary differences expected to be eliminated in or after the fiscal year beginning on November 1, 2012. The rate will be changed from 41.0% to 35.6% for temporary differences expected to be eliminated in or after the fiscal year beginning on November 1, 2015.

As a result of this change, net deferred tax assets at the end of the fiscal year under review declined 251 million yen, and income taxes-deferred posted in the fiscal year under review rose 251 million yen.

(Segment information)

Segment information

1. Overview of reported segments

The business of the Company is categorized into two reported segments by service: the Parking Business and the Mobility Business. Separate financial information is available for each of the reported segments in accordance with the constituent units of the Company and the Group, and the Board of Directors reviews each reported segment regularly to determine the distribution of management resources and to evaluate financial results.

The following is a description of each reported segment:

- (1) Parking Business: Operations relating to management and operation of parking sites
- (2) Mobility Business: Automobile-related operations relating to the rent-a-car service, car sharing service, and road service
- 2. Method of calculating net sales, profits or losses, assets, obligations and other flows by segment The accounting treatment for reported segments is generally similar to the descriptions under "important matters for production of the consolidated financial statements." Profits of reported segments are figures based on operating profit. The Company does not allocate assets and liabilities to reported segments.

3. Information on sales, profits or losses and other flows by reported segment Previous consolidated fiscal year (from November 1, 2010 to October 31, 2011)

(Unit: million yen)

(emi: miller) yea					
	Reported segment				Amount on consolidated

Amortization of long-term prepaid expenses	1,731	213	1,945	1	1,947

- (Note) 1. An adjustment of minus ¥5,901 million in segment profit (loss) includes an amortization of goodwill of minus ¥331 million (amortized balance: ¥2,068 million) and Company-wide expenses of ¥5,570 million. Company-wide expenses are mainly expenses that do not belong to either of the reported segments. Those expenses are relating to the administration division, including the general affairs department.
 - 2. Segment profit (loss) is adjusted in accordance with operating profit in the consolidated profit and loss statement.
 - 3. Renaming of segment

The Rent-a-Car Business has been renamed the Mobility Business in the fiscal year under review. The road service operated by Rescue Network Co., Ltd. has been added to the segment. Consolidated fiscal year under review (from November 1, 2011 to October 31, 2012)

Consolidated fiscal year under review (from November 1, 2011 to October 31, 2012)

(Unit: million yen)

(Note) 1. An adjustment of minus ¥5,631 million in segment profit (loss) includes an amortization of goodwill of minus ¥356 million (amortized balance: ¥1,711 million) and Company-wide expenses of ¥5,275 million. Company-wide expenses are mainly expenses that do not belong to either of the reported segments. Those expenses are relating to the administration division, including the general affairs department.

2. Segment profit (loss) is adjusted in accordance with operating profit in the consolidated profit and loss statement.

Relevant information

Previous consolidated fiscal year (from November 1, 2010 to October 31, 2011) and Consolidated fiscal year under review (from November 1, 2011 to October 31, 2012)

1. Information according to product and service

Similar information is disclosed in Segment Information, and a statement is therefore omitted.

2. Information according to region

(1) Net sales

Net sales in Japan to external customers account for more than 90% of the total net sales in the consolidated profit and loss statement, and a statement is therefore omitted.

(2) Property, plant and equipment

Property, plant and equipment in Japan account for more than 90% of the total property, plant and equipment in the consolidated balance sheets and a statement is therefore omitted.

3. Information according to major customer

No external customer accounts for more than 10% of net sales on the consolidated profit and loss statement, and a statement is therefore omitted.

Information concerning amortization of goodwill and amortized balance according to reported segment Previous consolidated fiscal year (from November 1, 2010 to October 31, 2011) and Consolidated fiscal year under review (from November 1, 2011 to October 31, 2012)

Related information is described in the segment information section, and the information is omitted here.

Information concerning gain on negative goodwill according to reported segment Not applicable

(Per share information)

	From November 1, 2010 to October 31, 2011 Previous consolidated fiscal year	From November 1, 2011 to October 31, 2012 Consolidated fiscal year
Shareholders' equity per share	290.70yen	330.44 yen
Net income per share	45.94 yen	67.37 yen
Net income per share after adjustment of latent shares	45.81 yen	66.98 yen

(Note) The grounds for the calculation of Net income per share and Net income per share after adjustment of latent shares are as follows:

ltem	From November 1, 2010 to October 31, 2011 Previous consolidated fiscal year	From November 1, 2011 to October 31, 2012 Consolidated fiscal year
Net income per share		
Net income (million yen)	6,546	9,670
Net income associated with common shares (million yen)	6,546	9,670
Average number of shares issued during the term (thousand shares)	142,492	143,540
Net income per share after adjustment of latent shares		
Increase in common shares(thousand shares)	426	832
[Of which, equity warrants] (thousand shares)	(33)	(436)
[Of which, bonds with warrants] (thousand shares)	(393)	(396)
Summary of latent shares not included in the calculation of net income per share after adjustment of latent shares as they do not have a dilution effect	Stock options pursuant to the provisions of Articles 280-20 and 280-21 of the former Commercial Code (with warrants) (Resolution of the annual meeting of shareholders held on January 26, 2006) Number of warranted shares: 1,811,400 shares Exercise price:2,138 yen	Stock options pursuant to the provisions of Articles 280-20 and 280-21 of the former Commercial Code (with warrants) (Resolution of the annual meeting of shareholders held on January 26, 2006) Number of warranted shares: 1,789,400 shares Exercise price:2,138 yen

(Changes in accounting policies)

The Accounting Standard for Earnings Per Share (Accounting Standards Board of Japan [ASBJ] Statement No. 2 on June 30, 2010) and the Guidance on Accounting Standard for Earnings Per Share (ASBJ Guidance No. 4 published on June 30, 2010) were applied in the fiscal year under review.

The Company has changed the method by which it calculated diluted net income per share as follows: For stock options that vest after a specified service period, the Company now includes the portion of stock options' fair value attributable to future service when calculating the cash proceeds assumed to be receivable upon exercise of the stock options.

If the accounting standard is not applied, diluted net income per share for the previous fiscal year was 45.81 yen.
