		Q4 Actual (Cumulative)	Q4 Assessment	
	Malls	527	Excellent	In addition to firm specialty store sales (+1.5%), improved operating costs and SG&A contributed to our outperforming plan.
(3) Fair resulted in continued profit declines through Q3.		Delays a major renovations at existing locations and related sales opportunity loss resulted in continued profit declines through Q3. However, major renovations during Q4 led to improved specialty store sales (3.0% higher for Q4 YoY) and a swing to profits.		
Overseas	China	(4)	Fair	Comparative store sales growth slowed, underperforming plan. However, 13 existing malls reported growth in specialty store sales (+10.5%), operating revenue (+10.1%; +¥2.3 billion), and gross profit (+133.8%; +¥2.1 billion). We expect to see the benefits of renovations and stable income growth in the future.
ASEAN 9 Excellent All three ASEAN countries achieve profits and outperform favorable sales performance in the future.		All three ASEAN countries achieve profits and outperformed plan. We expect continued favorable sales performance in the future.		
Total		529	Good	Favorable performance in Japan mall businesses and ASEAN covered for plan shortfalls in urban mall shopping centers and China. We underperformed our published plan figures for operating income only slightly at 99.0%.

[Capture Growth Opportunities in Asia] Overseas: Specialty Store Sales Trends (Existing Malls)

- (1) Seventy percent of malls have been open for more than three years, entering a cycle of stable growth.
- (2) Many malls have been open for 3 to 4 years, becoming more active and entering a phase of revised lease terms, mainly for tenants reaching the end of lease agreements.
 - →We expect to see stable growth in the next fiscal year and beyond, reflecting the impact of greater activity.

Tree-Planting Activities

AEON Group cumulative total of 11.9 million trees planted. AEON MALL Co., Ltd. sponsored tree planting events at seven new malls opened around the world during FY2018, accounting for 124,000 new trees.

■ Solving Social Issues

Expansion of AEON Yume-Mirai Nursery Schools

The AEON Yume-Mirai Nursery School at AEON MALL and Aeon Group shopping complexes is an on-site childcare service for preschool-aged children of employees of the Aeon Group and tenant specialty stores. We have opened 25 AEON Yume-Mirai Nursery Schools (including 7 in AEON Group facilities) to support our employees who work and raise children. A total of 19 nursery schools are certified company-led childcare services. (As of Feb 2019)

Company-led childcare business

Implemented for the purpose of contributing to reducing the number of children on the waiting list for a childcare center and supporting the lifestyle of both managing a career and raising children by increasing childcare services that allow diverse working styles based on company-led, inhouse childcare business.

Expanding Social Infrastructure

For greater customer convenience, we provide community infrastructure within our malls. This includes post offices, branch locations for city offices, libraries, health clinics, financial services, and more. AEON MALL strives to create localized malls that serve as community centers offering useful functions (polling stations for early voting, etc.)

Improving Disaster Prevention Systems

Most malls in Japan have signed agreements with local governments to participate in support disaster prevention activities.

Every AEON MALL location conducts regular practical disaster training, which includes the participation of specialty store employees. We work with the Self-Defense Forces, fire departments, police departments, the Ministry of Land, Infrastructure, Transport and Tourism, and other organizations in disaster-prevention events.

Blood Drive Activities

We work with the Japan Red Cross Society to sponsor blood donation activities. In December 2018, student volunteers from the Japan Red Cross Society conducted a blood drive at 40 malls across Japan, called the Japan Student Christmas Blood Donation Campaign.

■ Independent Certifications

3 more malls certified as DBJ Green Building

3 malls certified as Green Buildings in recognition of efforts to reduce environmental footprint and provide customers with greater convenience and comfort.

Certified Malls

- AEON MALL Kurashiki (Rank 5)
- AEON MALL Morioka (Rank 4)
- AEON MALL Nogata (Rank 4)

THE OUTLETS HIROSHIMA (Opened April 2018)

THE OUTLETS opened as the first regional innovative commercial facility in Saeki Ward, Hiroshima City. Prior to opening, the facility worked with the community in the AEON Hometown Forest Project and created a tiered

forest consisting of a canopy layer, a bush layer, and a grass layer of plant life.

DBJ Green Building Certification

DBJ Green Building Certification is program operated by Development Bank of Japan Inc. The certification for real estate evaluates buildings based on environmental functions, comfort, risk management, neighbor/community impact, and cooperation with stakeholders.

AEON MALL Zama (Opened March 2018)

A shopping mall opened in Zama City, home to the Zama hills, the Sagami River, and other natural features. Prior to opening, the facility worked with the community in the AEON Hometown Forest Project. The southern edge of the AEON MALL campus

features a green belt made from trees reminiscent of a country woodland and a walking path.

■ Third-Party Evaluations

Fourth consecutive Green Star rating from GRESB* Real Estate

AEON MALL was recognized for outstanding management/policies and execution/measurement related to environmental awareness and sustainability.

Third consecutive selection as a Nadeshiko Brand for FY2018

AEON MALL is working to increase the ratio of women in management, creating a workplace environment that enables women to be more active and continuing long-term careers. Our efforts include systems for work-child care balance, tracking work hours to reduce overtime, and assessing performance based on efficiency. For the third consecutive year, AEON MALL has been selected as a *Nadeshiko Brand*, an honor which recognizes publicly traded companies that encourage the participation of women in the workplace.

Nadeshiko Brand

The Nadeshiko Brand is a joint program between the Ministry of Economy, Trade and Industry and the Tokyo Stock Exchange to recognize publicly traded companies that are outstanding in terms of encouraging the empowerment of women in the workplace.

Scored a B under CDP2018

AEON MALL received recognition for our initiatives and information disclosure regarding climate change, scoring a B from the Carbon Disclosure Project.

(Third-highest of eight stages)

Carbon Disclosure Project (CDP)

CDP is an international NGO promoting climate change information disclosure. The entity represents more than 800 institutional investors accounting for US\$1 trillion. CDP conducts annual survey of the world's largest corporations, more than 6,800 of which answered the fiscal 2018 CDP survey.

Our Approach to FY2019

- During our current three-year plan, our overseas business has entered a stage of expanding profits, accelerating the speed of profit growth for the Company.
 We expect double-digit average annual growth of 11.3%.
- In addition to stable growth in Japan throughout our next medium-term plan, we are striving for faster profit growth overseas, aiming for ¥100 bn in operating income in 2025.

Consolidated Plan

- The Company plans for FY2019 operating income of ¥62.0 billion.
- Under our current medium-term plan (FY2017-FY2019), our overseas businesses have swung to a profit, showing improved operating income of ¥11.2 billion, and becoming a driver for growth.
- Our Japan mall business is showing strong growth in response to floor space expansions and other activation measures.
- While our urban shopping center business is showing a delay in earnings improvements, we are beginning to see the results of renovations and the business is entering an improvement stage.

Medium-term plan calls for 27 new store openings. Overseas openings will outnumber Japan openings as we shift toward our overseas business in earnest.

(10 Japan Malls, 12 Overseas Malls, 5 Urban Shopping Centers)

Overseas

 Accelerate openings in ASEAN in 2020 and beyond. Focus on Vietnam in particular as a key future high-growth area.

Japan

- Slow pace of openings due to rising construction costs.
- Continue aggressive schedule of expansions and renovations for existing malls in 2020 and beyond.

♦ New Openings and Reactivated Malls

We project our three-year capital investment to be ¥575.0 billion, ¥ 75.0 billion higher than initial plan. We are expanding investment to maximize property values. Factors behind this expansion include the following:

- 1. Land acquisition for developing multi-use facilities
- 2. Decrease securitized developments
- 3. Acquisition of existing malls

- Trending toward economic expansion through internal demand, mainly in consumer products and services.
- Personal consumption accounts for nearly 40 percent of GDP. Significant room for growth compared to Japan (60 percent) and the U.S. (70 percent).
- Consumer spending in rural areas still immature compared to urban cities. Rural areas expected to grow, creating a larger middle-class segment.

China

- Changes in consumer environment due to trade friction with the U.S.
- Slowdown in economic growth rate

New tenants in areas with promising mall business growth; sustained growth by leveraging activation expertise developed in Japan to raise value of existing malls

- Renovate tenant space timed to the end of new contracts (every 3 years) and entry of new tenants, repeat cycle of lease term revisions, and expand floor space deliberately to secure revenue and profit growth independent of macroeconomics.
- Use cash flows generated by AEON MALL stores to invest in activation measures

 Changes in competitive environment overseas

Leverage mall management and operations expertise from Japan to develop competitive malls

- While overseas developers tend to emphasize efficiency, our malls in China and ASEAN featured large-scale flat parking area, reflecting our understanding future motorization in these regions. These parking lots also serve as a competitive advantage for use in future expansion.
- We conduct shopping mall management and operations that compare favorably with Japanese malls, offering facilities that provide comfort, security, and safety on par with Japan.

AEON MALL Strengths Overseas

- (1) Large-scale parking capacity reflecting motorization
- (2) Ability to organize a store floor that is suitable for the locale
- (3) Meet the demand for experiential consumption by offering more entertainment options
- (4) Hold events that attract customers
- (5) Provide comfortable, secure and safe facilities

Japan Malls E-commerce transaction growth

(Brick-and-mortar versus e-commerce)

Impact of e-commerce is limited in light of the range of functions and daily needs goods offered by brick-and-mortar

- •While the e-commerce market (sales of goods) is growing, growth rates have slowed. Meanwhile, recent revenue growth rates at our malls are rising.
- •Malls in the U.S. mainly sell goods; however, our malls also offer a complete range of dining, entertainment, and other in-person functions.
- •Using general merchandisers as anchor tenants and offering daily needs goods results in **high traffic and synergistic shopping**.

Selected companies can also be considered as companies with growth potential in the sense that they have the ability to make use of diverse human resources and the ability to adapt to a changing environment.

About the Nadeshiko Brand program

The aim of the Nadeshiko Brand is to introduce certain listed companies that are outstanding in terms of encouraging the empowerment of women in the workplace as attractive securities investment opportunities to investors who put emphasis on improving corporate value in the mid- and long-term, in an aim to promote investment in such enterprises and accelerate efforts encouraging women's success in the workplace Since FY2012, METI and the TSE have been scoring enterprises according to their progress in the encouragement of women's success while screening them based on financial indicators.

Expanding Day-Care Facilities as Company-Led Childcare Businesses

The AEON Yume-Mirai Nursery School at AEON MALL and Aeon Group shopping complexes is an on-site childcare service for preschool-aged children of employees of the Aeon Group and tenant specialty stores. To support work-life balance for employees raising children, these facilities operate at 25 locations nationwide, including facilities established in partnership with other childcare service providers. Nineteen of these facilities are certified as company-led childcare services by the Cabinet Office (as of February 2019).

Company-Led Childcare Business

Implemented for the purpose of contributing to reducing the number of children on the waiting list for a childcare center and supporting the lifestyle of both managing a career and raising children by increasing childcare services that allow diverse working styles based on company-led, in-house childcare business.
