While economic activities are gradually reopening after shutdowns due to the global spread of COVID-19, the global economy faced extremely challenging conditions in the three months ended June 30, 2020. The Japanese economy also faces similar challenging conditions as the global economy as corporate earnings continue to deteriorate due to COVID-19.

Under such circumstances, the Olympus Group announced its business transformation plan “Transform Olympus” in January 2019, aiming to develop itself as a truly global medtech company, and a medium- and long-term management strategy based on “Transform Olympus.” The management strategy indicates the long-term direction of the Company, and we are promoting initiatives toward sustainable growth.

The Olympus Group’s overall revenue for the three months ended June 30, 2020 decreased to ¥142,403 million (down 21.7% year on year) due to the decline in revenue in all our businesses due to factors such as limits on sales promotion activities because of COVID-19. Regarding operating profit (loss), we recorded ¥1,190 million (down 91.9% year on year), due to decreased revenue in all our businesses, despite a reduction in selling, general and administrative expenses. Moreover, despite a decrease of finance costs, loss attributable to owners of parent totaled ¥2,736 million (compared with profit attributable to owners of parent of ¥8,637 million in the same period of the previous fiscal year) due to the recording of income taxes.

Furthermore, we have recognized an impact on the Company’s consolidated results in the three months ended June 30, 2020 due to COVID-19 of approximately ¥34,000 million in revenue and approximately ¥11,000 million in operating profit.

Regarding foreign exchange, the yen appreciated against the U.S. dollar, the euro and the renminbi compared to the previous fiscal year. The average exchange rate during the period was ¥107.62 against the U.S. dollar (¥109.90 in the same period of the previous fiscal year), ¥118.48 against the euro (¥123.49 in the same period of the previous fiscal year) and ¥15.17 against the renminbi (¥16.07 in the same period of the previous fiscal year) which caused revenue and operating profit to down by ¥5,381 million and ¥1,732 million, respectively, year on year.

**Endoscopic Solutions Business**

(Millions of yen)

	Three months ended June 30, 2019	Three months ended June 30, 2020	Increase (Decrease)	Increase (Decrease) ratio (%)
Revenue	95,410	79,198	(16,212)	(17.0)
Operating profit (loss)	21,918	14,631	(7,287)	(33.2)

Consolidated revenue in the Endoscopic Solutions Business amounted to ¥79,198 million (down 17.0% year on year), while operating profit amounted to ¥14,631 million (down 33.2% year on year).

In April 2020, in Europe and Asian, we introduced the new flagship endoscopic system "EVIS X1", but due to the impact of the COVID-19, postponement or discontinuation of gastrointestinal endoscopy was recommended by each academic society, the number of procedures decreased, and there were restrictions on sales promotion activities such as restriction of visits to medical institutions or postponement/cancellation of business negotiations. As a result, revenue in the Endoscopic Solutions Business declined.

Operating profit in the Endoscopic Solutions Business decreased mainly due to lower sales as a result of the pandemic despite the progress in cost efficiency.

**Therapeutic Solutions Business**

(Millions of yen)

	Three months ended June 30, 2019	Three months ended June 30, 2020	Increase (Decrease)	Increase (Decrease) ratio (%)
Revenue	52,056	38,100	(13,956)	(26.8)
Operating profit (loss)	5,676	1,449	(4,227)	(74.5)

Consolidated revenue in the Therapeutic Solutions Business amounted to ¥38,100 million (down 26.8% year on year), while operating profit amounted to ¥1,449 million (down 74.5% year on year).

Due to the impact of the COVID-19, postponement of surgery and procedures was recommended by each academic society, the number of procedures decreased, and there were restrictions on sales promotion activities such as restriction of visits to medical institutions or postponement/cancellation of business negotiations. As a result, revenue in the Therapeutic Solutions Business declined.

Operating profit in the Therapeutic Solutions Business decreased mainly due to lower sales as a result of the pandemic despite the progress in cost efficiency.

**Scientific Solutions Business**

(Millions of yen)

	Three months ended June 30, 2019	Three months ended June 30, 2020	Increase (Decrease)	Increase (Decrease) ratio (%)
Revenue	22,613	17,757	(4,856)	(21.5)
Operating profit (loss)	1,644	(1,604)	(3,248)	—

Consolidated revenue in the Scientific Solutions Business amounted to ¥17,757 million (down 21.5% year on year), while operating loss amounted to ¥1,604 million (compared with an operating profit of ¥1,644 million in the same period of the previous fiscal year).

The electrical component and semiconductor markets in China have been on a recovery trend. However, overall, in addition to a reduced desire for capital investment in the aviation and automotive industries, restrictions on sales promotion activities including restrictions on visits to clients and delays and cancellations of business negotiations due to COVID-19 led to decreased sales in the Scientific Solutions Business.

Operating profit in the Scientific Solutions Business decreased mainly due to lower sales as a result of the pandemic despite the progress in cost efficiency.

**Imaging Business**

(Millions of yen)				
	Three months ended June 30, 2019	Three months ended June 30, 2020	Increase (Decrease)	Increase (Decrease) ratio (%)
Revenue	10,189	6,024	(4,165)	(40.9)
Operating profit (loss)	(2,341)	(2,746)	(405)	–

Consolidated revenue in the Imaging Business amounted to ¥6,024 million (down 40.9% year on year), while operating loss amounted to ¥2,746 million (compared with an operating loss of ¥2,341 million in the same period of the previous fiscal year).

A harsh operating environment due to the rise of smartphones, etc. in addition to a decrease in customers at physical stores because of the impact of COVID-19 led to a decline in revenue in the Imaging Business.

Operating loss in the Imaging Business expanded mainly due to the decrease in revenue, despite the advancement of improved cost-effectiveness.

**Others**

(Millions of yen)				
	Three months ended June 30, 2019	Three months ended June 30, 2020	Increase (Decrease)	Increase (Decrease) ratio (%)
Revenue	1,617	1,324	(293)	(18.1)
Operating profit (loss)	(646)	(438)	208	–

Consolidated revenue in other businesses amounted to ¥1,324 million (down 18.1% year on year), while operating loss amounted to ¥438 million (compared with an operating loss of ¥646 million in the same period of the previous fiscal year).

Due to the impact of COVID-19, revenue decreased in the animal-related business and the imaging component business following restrictions on sales promotions activities.

Operating profit (loss) in other businesses improved due to cost reductions following the completion of some development themes in the imaging component business.

**(2) Financial Position**

As of the end of the first quarter under review, total assets increased by ¥83,418 million compared to the end of the previous fiscal year to ¥1,099,081 million. This is primarily because cash and cash equivalents increased ¥108,012 million and inventories increased ¥15,722 million, despite trade and other receivables decreasing ¥31,060 million and retirement benefit asset decreasing ¥13,848 million as a result of the impact of implementing a pension buy-in for the primary pension plan for the Olympus Group's subsidiaries located in the U.K. in the three months ended June 30, 2020. Due to the pension buy-in, a portion of plan assets held have been contributed to the insurance company, and the Olympus Group concluded an insurance agreement with the insurance company that ensures the receipt of an amount of money equivalent to pension benefits for pensioners in the future.

Total liabilities increased in comparison to the end of the previous fiscal year by ¥93,421 million to ¥737,126 million. This is primarily because of a ¥30,926 million increase in bonds and borrowings in current liabilities in addition to a ¥84,079 million increase in bonds and borrowings in non-current liabilities due to the impact of financing through long-term borrowings in order to secure on-hand liquidity in light of the impact of COVID-19 on business results, despite a ¥11,687 million decrease in trade and other payables.

Total equity decreased in comparison to the end of the previous fiscal year by ¥10,003 million to ¥361,955 million. This is primarily because of a ¥11,348 million decrease in retained earnings due to the recording of loss attributable to owners of parent and the impact of implementing a pension buy-in for the primary pension plan for the Olympus Group's subsidiaries located in the U.K. in the three months ended June 30, 2020.

As a result of the foregoing, equity attributable to owners of parent to total assets decreased from 36.5% as of the end of the previous fiscal year to 32.8%.

### (3) Cash Flows

Cash and cash equivalents at the end of the first quarter under review reached ¥270,671 million, an increase of ¥107,954 million compared to the end of the previous fiscal year. The following is the cash flows for the three months ended June 30, 2020.

#### Cash flows from operating activities

Net cash provided by operating activities for the three months ended June 30, 2020 was ¥8,388 million (compared with ¥28,406 million provided for the three months ended June 30, 2019). The main sources of cash included an adjustment for noncash items of ¥15,378 million in depreciation and amortization, and a decrease in trade and other receivables of ¥31,566 million. The main uses of cash included ¥15,196 million increase in inventories, ¥10,092 million decrease in trade and other payables, and ¥5,786 million of income taxes paid.

#### Cash flows from investing activities

Net cash used in investing activities for the three months ended June 30, 2020 was ¥12,291 million (compared with ¥15,513 million used for the three months ended June 30, 2019). The main uses of cash included ¥8,569 million in purchase of property, plant and equipment and ¥4,068 million in purchase of intangible assets.

#### Cash flows from financing activities

Net cash provided by financing activities for the three months ended June 30, 2020 was ¥111,818 million (compared with ¥11,285 million used for the three months ended June 30, 2019). Increasing factors mainly included ¥16,128 million in increase in short-term borrowings and commercial papers and ¥99,180 million in proceeds from long-term borrowings. Regarding proceeds from long-term borrowings, this was because financing was carried out through long-term borrowings in order to secure on-hand liquidity in light of the impact of COVID-19 on business results.

### (4) Explanation of Forecast of Consolidated Financial Results and Other Forward-looking Statements

The forecast of consolidated financial results for the fiscal year ending March 31, 2021 has not been determined at the current point in time due to the difficulties of making a reasonable calculation because of continuing uncertainties regarding when the COVID-19 crisis will be over, the responses of each country and region, market trends and economic trends that will be affected by those impacts, and because there have fundamentally been no changes to those factors since the submission of the “Consolidated Financial Results for the Fiscal Year Ended March 31, 2020” on May 29, 2020. We intend to promptly disclose such information when the forecast of consolidated financial results is able to be calculated.

## (6) Notes to Condensed Consolidated Financial Statements

(Notes on premise of going concern)

No items to report

(Reporting entity)

Olympus Corporation (hereinafter, the “Company”) is a joint stock company located in Japan. The address of its registered head office is Hachioji-shi, Tokyo. The Company’s condensed consolidated financial statements comprise the Company and its subsidiaries (hereinafter, the “Olympus Group”) and interests in the Company’s associates.

The Olympus Group is principally engaged in the manufacture and sales of endoscopic, therapeutic and scientific, imaging and other products. Details of each business are as described in Note “Segment information.”

(Basis of preparation)

### (1) Statement of the condensed consolidated financial statements’ compliance with IFRS

The condensed consolidated financial statements of the Olympus Group have been prepared in accordance with IAS 34. Since the requirements for “Specified Company of Designated International Accounting Standards” set forth in Article 1-2 of the “Regulation on Terminology, Forms, and Preparation Methods of Quarterly Consolidated Financial Statements” are satisfied, the Olympus Group adopts the provisions of Article 93 of the same Regulation. The condensed consolidated financial statements do not include all the information and disclosures required in the annual consolidated financial statements and should be used in conjunction with the Olympus Group’s annual consolidated financial statements as of March 31, 2019.

These condensed consolidated financial statements were approved by Director, Representative Executive Officer, President and CEO Yasuo Takeuchi, and Executive Officer and CFO Chikashi Takeda on August 5, 2020.

### (2) Basis of measurement

The Olympus Group’s condensed consolidated financial statements have been prepared on an acquisition cost basis, except for specific financial instruments measured at fair value.

### (3) Functional currency and presentation currency

The Olympus Group’s condensed consolidated financial statements are presented in Japanese yen, which is also the Company’s functional currency, and figures are rounded off to the nearest million yen.

(Significant accounting policies)

The significant accounting policies adopted for the condensed consolidated financial statements of the Olympus Group for the three months ended June 30, 2020 are the same as those applied for the fiscal year ended March 31, 2020.

(Significant accounting estimates and associated judgments)

In preparing IFRS-based consolidated financial statements, the management is required to make judgment, estimates and assumptions that affect the adoption of accounting policies and the amounts of assets, liabilities, revenues and expenses. Actual results may differ from such estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis and the effect is recognized in the period in which the estimates are revised and in future periods.

The details of significant accounting estimates and associated judgments in the condensed consolidated financial statements are unchanged from the contents described in the consolidated financial statements for the previous fiscal year.

Furthermore, as described in the consolidated financial statements for the previous fiscal year, the effects of the spread of COVID-19 differ by region, but overall, are expected to gradually disappear from the third quarter of the current consolidated fiscal year. We have assumed that the Company’s sales activities will also begin to normalize at that point, and there have been no changes to that assumption.

## (Segment information)

## (1) Overview of reportable segments

The reportable segments of the Olympus Group are the units for which separate financial information is available and according to which reporting is periodically conducted to decide how to allocate management resources and assess business performance.

The Olympus Group has five basic segments: Endoscopic Solutions Business, Therapeutic Solutions Business, Scientific Solutions Business, Imaging Business, and Others. The Olympus Group has established comprehensive strategies and engages in business activities for the products and services it handles both in Japan and overseas.

Accordingly, the Olympus Group has the abovementioned five businesses as reportable segments.

The principal products and services of each reportable segment are as follows.

Reportable Segment	Principal products and services
Endoscopic Solutions Business	Gastrointestinal endoscopes, surgical endoscopes, endoscopy systems, repair service
Therapeutic Solutions Business	Endo-therapy devices, energy devices, urology, gynecology and ENT products
Scientific Solutions Business	Biological microscopes, industrial microscopes, industrial endoscopes, non-destructive testing equipment
Imaging Business	Digital cameras, voice recorders
Others	Biomedical materials

## (2) Revenue and business results for reportable segments

Revenue and business results of each reportable segment of the Olympus Group are as follows. The accounting method used for reportable segments is the same as the accounting policies of the Olympus Group that are described in “Significant accounting policies.”
