■ Revenue

- Revenue fell compared to the previous year, due to the negative impact of COVID-19 and a significant increase in demand for PCs last year that did not recur this year, resulting in a relative fall in revenue.

■ OPPL

- Excl. special items and restructuring: Profits increased significantly due to ongoing improvements in profitability and greater efficiency in expenses
- Special items: Profits increased due to profits from the sale of businesses, as well as business model transformation expenses recorded last year that did not recur this year.

■ Financial Income (Expenses), etc.

- Profits increased due to profits from the listing of an internal startup company and from the impact of foreign exchange.

■ Profit for the Period Attributable to Owners of the Parent

- Profit increased significantly due to the recording of one-time gains, in addition to the increase in operating profit excluding special items and restructuring.

■ Capital Allocation Policy (Material republished from July 2020)

Over the next
5 years
(FY20-24)

- (1) Cash flow: Create free cash flow of over 1 trillion yen over the next five years
- (2) Allocation: Cash flow will be optimally allocated to growth investments and shareholder returns

Note: Business cash flow = FCF – lease payments + growth investments

■ Executing Strategic Growth Investments

We will actively execute necessary investments to create value that can be delivered to customers and society, and to accomplish Fujitsu's own transformation into a DX company (500-600 billion yen over 5 years)

- Investments for creating value
- Investments for our own transformation

■ Delivering Stable Shareholder Returns

We are aiming for stable shareholder returns over the medium-to-long term that correspond to the stage of growth in our businesses and profits

- Dividends: We will carry out stable dividend payments based on continued growth in our businesses
- Stock Buybacks: Surplus funds reserved over long time periods will be used as capital for flexible stock buybacks (responding while bearing in mind changes in capital needs)

- We aim to increase business growth, profitability, and capital efficiency through optimal allocation of cash flow
- From a capital efficiency perspective, we will focus on earnings per share (EPS), with the goal of continued growth in EPS going forward

Capital Allocation Policy

■ **Allocation: Growth Investments** – 500-600 billion yen over 5 years

We will actively pursue growth investments in fiscal 2021, leading to business expansion and improvements in profitability
