| Company will perform a one-for-five share 2021. When calculated on a post-share co | | - | (Profit attributable to) |
| | | | |

- *1 Core earnings = Gross profit + Selling, general and administrative expenses (before provision of allowance for doubtful accounts and write-offs) + Net interest expenses + Dividends received + Share of profit (loss) of investments accounted for using the equity method
- *2 Core operating cash flow = Net cash provided by (used in) operating activities Changes in working capital

*3 Core cash flow = Core operating cash flow + Post-adjustment, net cash provided by (used in) investing activities – Dividends paid – Purchase of treasury stock (Post-adjustment, net cash provided by (used in) investing activities is net cash provided by (used in) investing activities after adjustment for changes in long-term operating assets, etc.)

Caution regarding forward-looking statements

This document contains forward-looking statements based on information available to the Company at the time of disclosure and certain assumptions that management believes to be reasonable. Actual results may differ materially based on various factors, including the timing at which the COVID-19 pandemic ends; changes in economic conditions in key markets, both in and outside of Japan; and exchange rate movements. The Company will provide timely disclosure of any material changes, events, or other relevant issues.
