*1 Occupancy rate is the weighted average of the occupancy rate at the end of each month on an area basis.

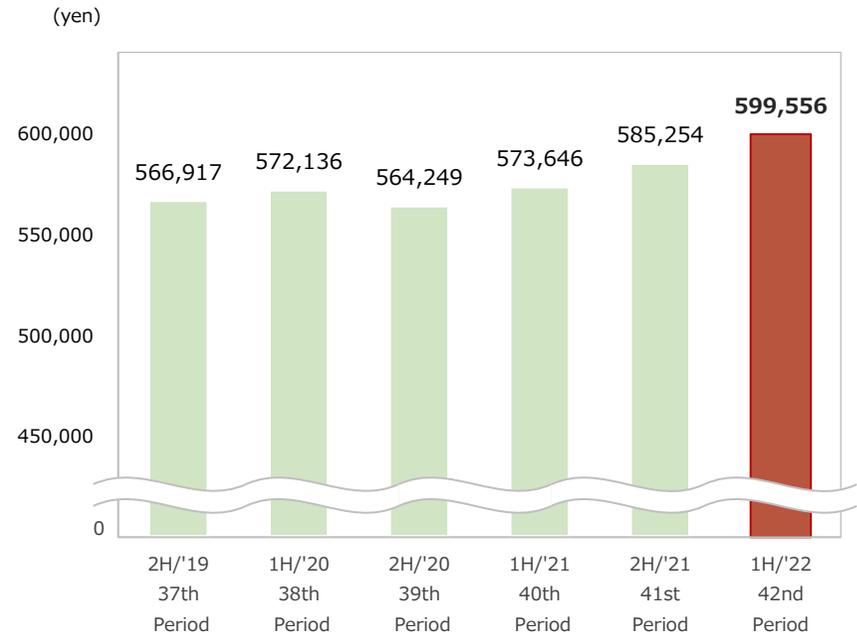

*2 (Unitholders' capital at end of period + reserve for reduction entry at end of period + reserve for reduction entry for next period (reserve amount - reversal amount)) + unrealized gains on appraisal at end of period / number of investment units issued and outstanding at end of period

Through stable growth of DPU over the medium to long term and an increase in NAV per unit, we aim to increase unitholder value.

3. Investment Results and Outlook

Investment policy: Stable growth of distribution per unit (DPU)

Internal Growth / Office Leasing Market

[Market Recognition]

- Although the rise in the vacancy rate appears to be slowing down, watch for the future large supply of the central Tokyo area
- Tenant demand for high-spec offices continues
- Cost increase due to higher electricity and materials prices and yen depreciation

[NBF policy]

- Large tenants have moved out
→ Cruising occupancy rate in the **97% range**

External Growth / Office Trading Market

[Market Recognition]

- Acquisition demand remains strong due to participation of diverse players
- No increase in cap rates due to higher interest rates

[NBF policy]

- Continue to acquire highly competitive properties while closely monitoring interest rate trends
- Continue to improve portfolio quality through property replacement

Finance / Financial Markets

[Market Recognition]

- Investment unit prices remained steady
- Higher debt financing costs due to higher interest rates

[NBF policy]

- Implement appropriate equity financing at the timing of property acquisitions; and control of LTV levels
- Continuation of good relationship with lenders and implement debt financing with attention to the diversification of repayment dates

Use of retained earnings and gains on transfers*

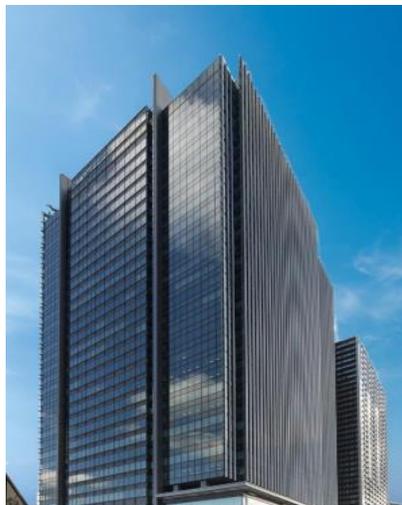

[NBF policy]

- Realize unrealized gains by replacing properties and use them to pass profits on to unitholders
- Utilizing retained earnings, provide unitholders with further distribution when the rental market recovers
- **Set the lower limit of DPU for the time being at 11,500 yen**

*Actual figures may vary due to changes in circumstances. The amount of distributions is not guaranteed.

The forecast figures for the period ending December 31, 2022 (43rd period) and the period ending June 30, 2023 (44th period) are the current figures calculated based on certain assumptions, and the actual figures may vary from these figures due to changes in circumstances. The amount of distributions is not guaranteed.

Distribution per unit

Stabilize distributions per unit by utilizing retained earnings and gains from transfers

Second source of distribution

[Reserve Policy]

In order to ensure stable growth of distribution per unit (DPU), the gain on transfer will be retained in consideration of tax efficiency.

[Reversal Policy]

The following policy will be applied to the retained earnings accumulated from the portfolio replacement.

(i) Regular withdrawal (**second source of distribution**)

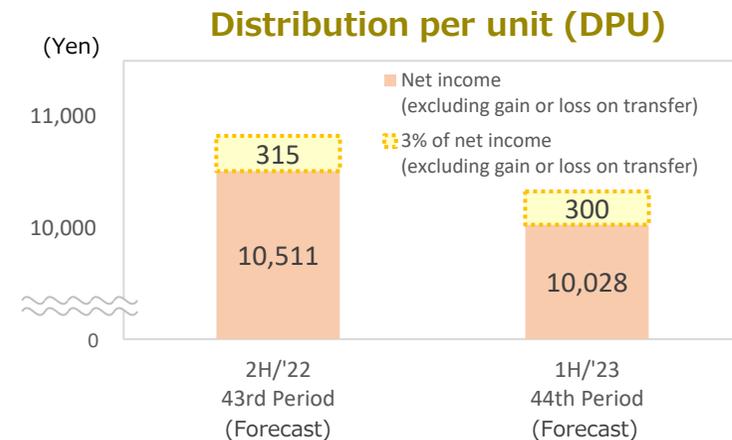

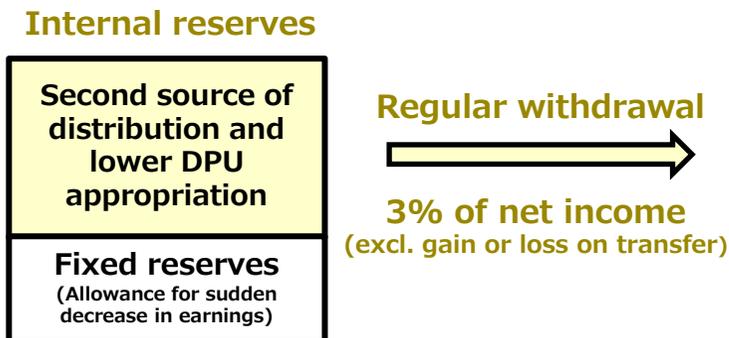

3% of net income (excluding gains or losses on dispositions) based on real estate leasing business will be reversed and added to distributions each fiscal period.

(ii) Fixed Reserves

Regular withdrawals will be made in excess of the amount of fixed reserves (0.5% of total assets, approx. 7 billion yen).

(iii) Utilization of the fixed reservation portion

Used in the event of transfer losses, impairment, large tenant move-outs, disasters, etc.

*The chart represents the concept of the second source of distribution and does not represent the actual distribution per unit (DPU).

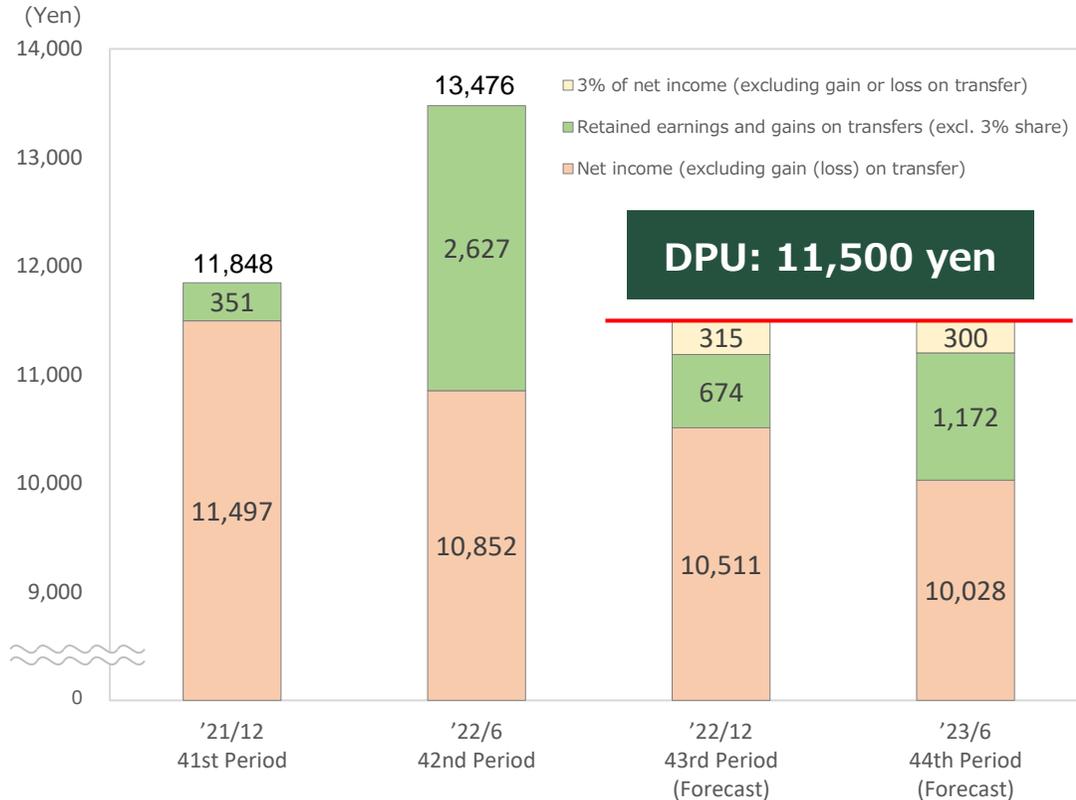

Distribution Policy: Assumptions for Earnings Forecasts

- For the time being, we set the minimum distribution per unit (DPU) at **11,500 yen** and manage to stabilize the DPU.

Retained earnings

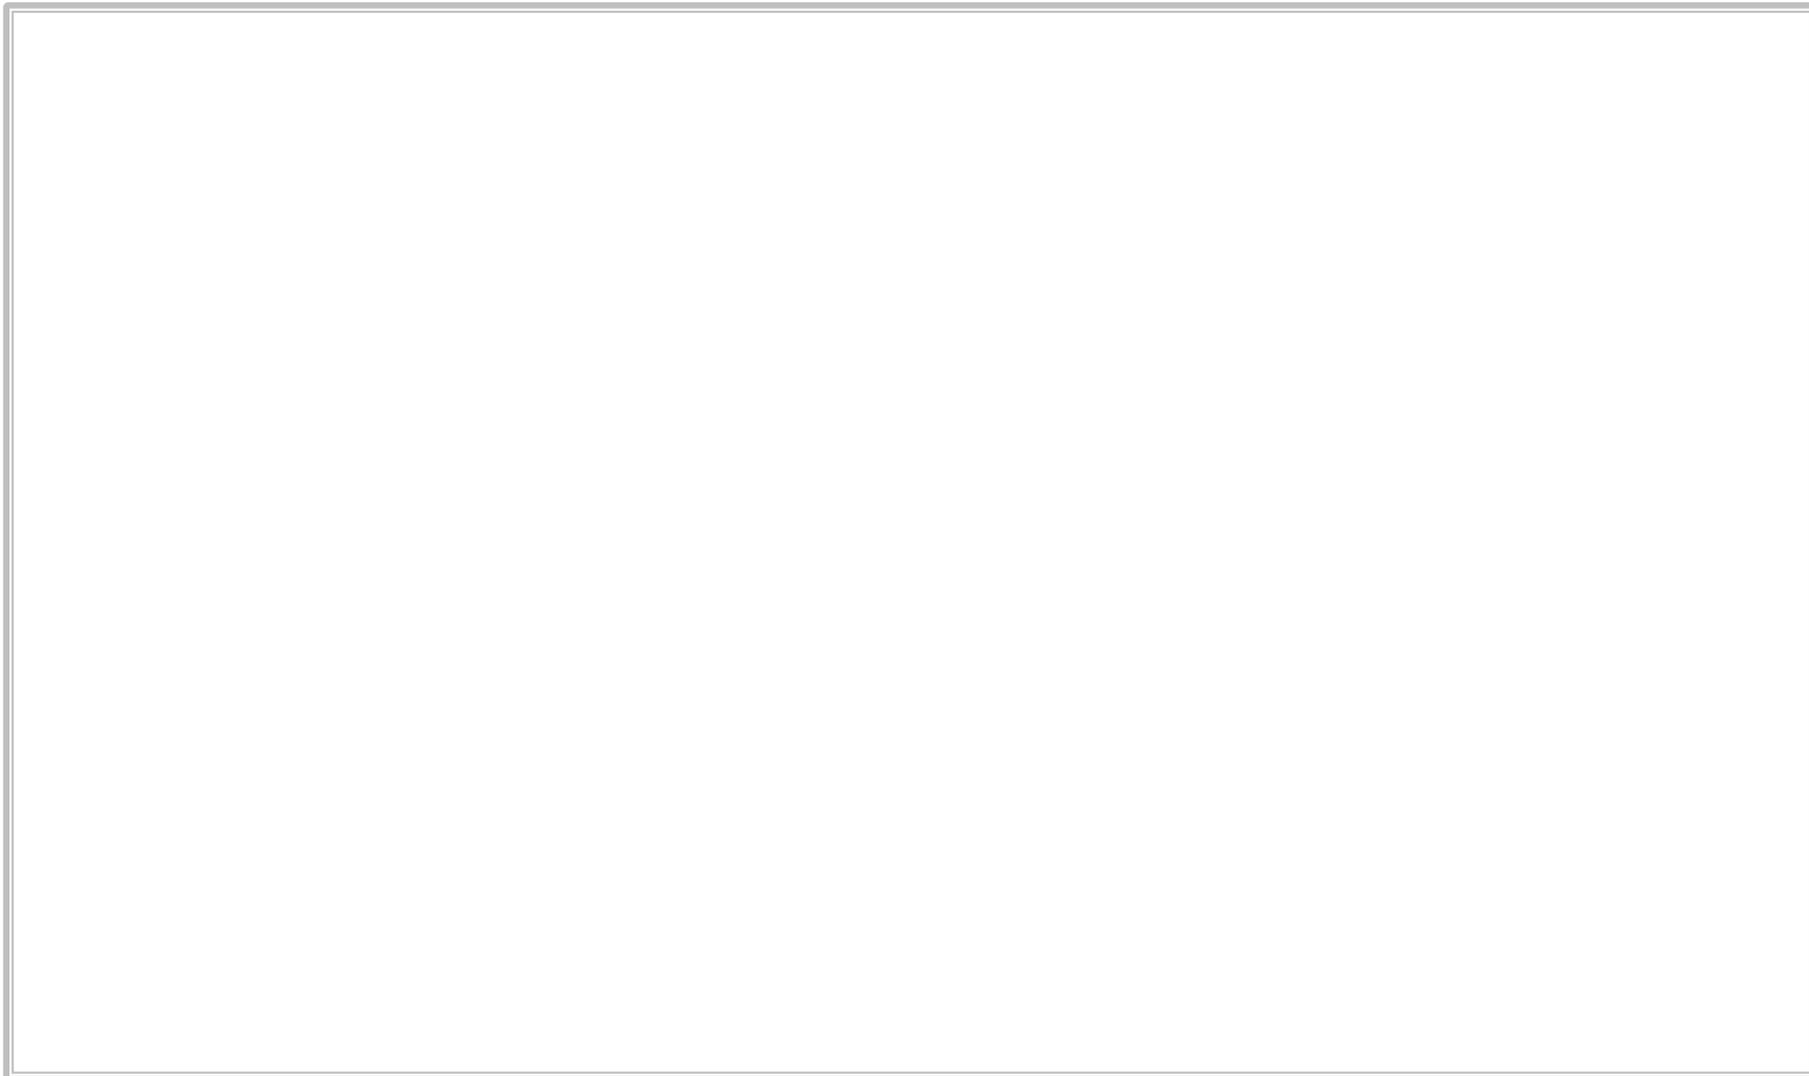

Distribution per unit (DPU)

*1 It is assumed that 509 million yen will be retained from the 2.19 billion yen gain on the dispositions of the Toyo-cho Center Bldg., NBF Niigata Telecom Bldg. and NBF Hiroshima Tatemachi Bldg., the amount of retained earnings will reach a balance of 13.6 billion yen.
 *2 It is assumed that 2,504 million yen will be withdrawn from retained earnings, resulting in a balance of 11.1 billion yen.

- Note 1: NOI from property leasing activities does not include such items as gain or loss on sale of investment properties.
- Note 2: NOI yield = NOI from properties held at beginning of period/Period-end book value of properties held at beginning of period × 2
- Note 3: FFO = Net income + Depreciation and amortization - Gain or loss on sale of investment properties
- Note 4: AFFO = FFO - Capital expenditures
- Note 5: FFO per unit = FFO/Weighted average number of units issued and outstanding during the period
- Note 6: NAV per unit = (Unitholders' capital at period end + Reserve for advanced depreciation in the next period (reserve - reversal) + Unrealized gain or loss on appraisal value at period end) ÷ Units issued and outstanding at period end
- Note 7: Figures in parentheses are annualized from monthly data.
- Note 8: DSCR = (Operating income - Gain or loss on sale of investment properties + Depreciation and amortization)/Interest expense
